Installation & Assembley

FIG.1

OUTLET BOX
BLACK (live) WIRE
WHITE (Neutral) WIRE
WIRE NUT (AA)
GROUND WIRE
FIXTURE PAN
DECORATIVE TUBE
MOUNTING SCREW (DD)
METAL RING
DIFFUSER
M4 Decorative Nut
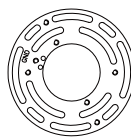

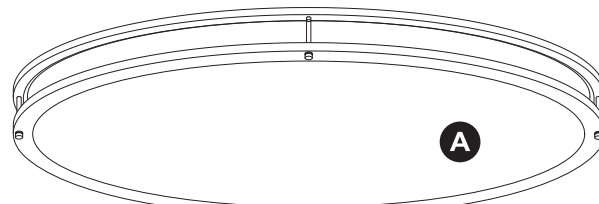

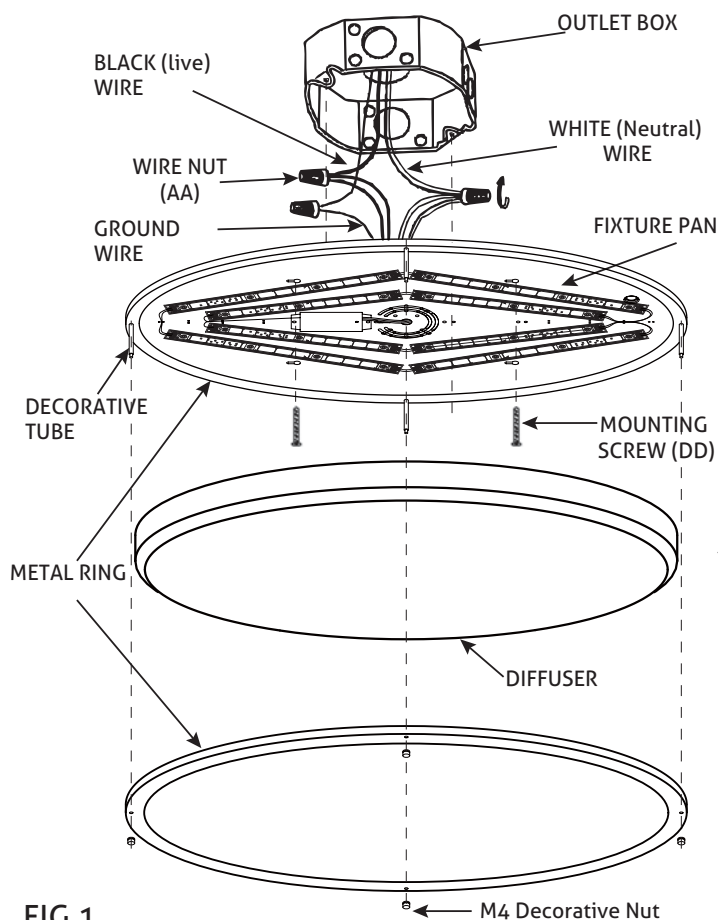

WARNING: Be sure the electricity to the wires you are working on is shut off. Either remove the fuse on turn the circuit off.

PRE-INSTALLATION:

i.   Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

ii. Unscrew the caps, remove the cover and ring from the baseboard.

INSTALLATION AND ASSEMBLY

1. Pull the Supply Wires and House Ground Wire out from the Outlet box.

2. Thread the fixture Mounting Screws (DD) into the appropriate threaded holes of the outlet box.

3. Connecting the Wires: use a WIRE CONNECTOR (BB) to connect the black fixture wire to the black supply wire (live wire) from the outlet box, and the white fixture wire to the white supply wire (neutral wire) from the outlet box.

4. connect the fixture ground wire to the supply ground wire together (if ground wire is missing, secure to the green screw on the mounting bracket). Wrap all wire connections with electrical tape to ensure secure connection.

5. Carefully tuck all wires back into the outlet box. Place the fixture pan over outlet box and feed fixture Mounting screws through keyhole slots. Rotate the fixture pan clockwise until fixture mounting screws slid into the narrow end of the keyhole slots and tighten firmly.

6. The CCT tunable selector switch was built in the fixture. allows the user to choose between three white color temperatures ranging from 3000K to 5000K (***default 5000K***) . Select desired CCT prior to closing the diffuser.

7. Attached the DIFFUSER and Metal Ring to the Fixture pan, screw up.

8. Installation complete, restore power at the circuit breaker and turn light switch on to activate this fixture.
