Color & Wattage Tunable Lay-In Fixtures

The Sunlite Color Tunable lay-in fixtures are fitted with a built-in color-changing panel, giving the user many possibilities while having to stock less inventory. Customize each fixture to the color-temperatures and wattage input level of your choice. There are three installation options for these products recessed, mounted, or suspended.

COLOR TUNABLE SWITCH

*The CCT changing switch allows for selecting the light temperature to match a wide range of applications.

The switch is conveniently placed on the fixture's back, allowing the user to choose between 3500K, 4000K, and 5000K before installation.
