

1 Light Geometric Rectangle Pendant Fixture

Installation Instructions for item AL10018P1

AMBIA
TE

CAUTION: To prevent electrical shock, ensure electricity has been turned off at the circuit breaker before beginning.

- Read all instructions before installing.
- Ensure all electrical connections must be made in accordance with the National Electric Code and local codes and ordinances. If you are uncertain of the methods of installing electrical wiring and lighting fixtures, secure the services of a qualified licensed electrician.
- Retain installation instructions for future maintenance reference.

PREPARATION

1. Shut off the power at the circuit breaker and remove existing fixture, including the crossbar.
2. Carefully unpack your new fixture and lay out all the parts on a clear area. Be careful not to lose any small parts necessary for installation.

MOUNTING THE FIXTURE

3. Screw the tube (J) into the fixture (K) and tighten.
4. Determine the desired hanging height and thread stems (G & H & I) to the tube (J).
5. Screw the canopy (E) into the stem (G) and tighten.
6. Adjust the length of the screw (B) to suit your needs.
7. Install the mounting plate (A) on the outlet box using the mounting screws (C).
8. Connect the fixture wire to the mains wire by wire nuts (D), smooth wire with live wire, ribbed wire with negative wire, ground wire with ground wire.
9. Fix the canopy (E) to the mounting plate (A) by the ball nuts (F).
10. Install bulb (not included), not to exceed max rated wattage. Turn on power at the circuit breaker.
