

G Series

Sunlite 40151-SU G16.5 Globe Light Bulbs 15 Watts, Candelabra Base (E12), 120 Volt, Incandescent, Dimmable, 12 Pack, 2600K Warm White, 12 Count

DESCRIPTION:

These G16.5 globe bulbs will compliment any fixture. With their candelabra base (E12) they are suitable for use in many applications like chandeliers, wall sconces, decorative lamps, pendant fixtures, display signs, and more. When attached to a dimmer switch the 84 lumen output of these lamps can be adjusted from 100% to 1% and anywhere in between with no flickering. These bulbs contain no mercury or other harmful chemicals making them safe for the environment. Bulb measures 2.79 inches high, 1.96 inches in diameter.

FEATURES:

- **CANDELABRA BASE** - With their candelabra base (E12) these White G16.5 Globe bulbs are suitable for use in many applications. Chandeliers, wall sconces, decorative lamps, pendant fixtures, sign displays, and more.
- **WARM WHITE LIGHT** - These 15 watt traditional incandescent bulbs put out a comfortable warm white light at 2600K.
- **DIMMABLE** - Adjust the light to suit your mood. When attached to a dimmer switch the 84 lumen output of these lamps can be adjusted from 100% to 1% and anywhere in between with no flickering.
- **CONVENIENT 12-PACK** - Save money with this handy 12-pack and have spare bulbs available when you need them.
- **MERCURY FREE** - These bulbs contain no mercury or other harmful chemicals making them safe for the environment. Bulb measures 2.79 inches high, 1.96 inches in diameter.
