1. Turn power OFF from the electrical panel before starting installation.
2. Carefully remove the fixture from the carton, and check that all parts are included, as shown in figure.
3. Select suitable location that can support the weight of the fixture.

Installation

Assembly Instructions

Step 1 – Preparing for installation.

- A. Disconnect electrical power at fuse or circuit breaker box before installing or servicing any part of this fixture.
- B. Remove fixture from carton; remove components from hardware kit.
- C. Remove the mounting bracket (4) from the fixture (1).

For 3.5" J-box

- D. Install mounting bracket (4) to junction box (not provided) by tighten two screws(2) to secure it.

For 4" J-box

- D. Install mounting bracket (4) to sheet plate(5) by tighten two screws(6).
- E. Install mounting bracket (4) and sheet plate(5) to junction box (not provided) by tighten two screws(2) to secure them.

Wiring-all wiring must take place inside junction box (not included).

Step 2 – Wiring fixture.

- A. Make all wire connections to appropriate wire. Secure with wire nuts (provided).
- B. Connect the bare wire from the fixture and the supply power source ground wire.
- C. Connect the black wire from the fixture to the black (L) wire from supply power source.

Step 3 – Mounting.

- A. Install fixture (1) to mounting bracket (4) by tighten two screws (3) on top and bottom to secure it.
- B. After mounting the fixture, caulk the surface between the fixture back and the mounting surface.

Step 4 – Restore power at fuse or circuit breaker box.
