

PENDANT LIGHT INSTALLATION

Please read carefully and save these instructions, as you may need them at a later date.

CAUTION

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Carefully unpack light fixture and hardware bag from box, and make sure that no parts are missing by referencing the illustrations on the installation instructions.

INSTALLATION AND ASSEMBLY

1. Pull the power supply wires out from the outlet box (1). Attach the mounting backplate(2) to the outlet box using two mounting screws (3).
2. Make wire connections, connect the black supply wire (5) to black fixture wire (11), white supply wire (4) to white fixture wire(10) and the fixture ground wire(12) to supply ground wire(6) using wire nuts (7). Wrap all wire connections with electrical tape for secure connection.
3. Place the pan base (11) of the lamp over the mounting bracket(2). Insert the fixture pan screws (12) and tighten to secure the lamp to the ceiling.
4. Attach the socket (13) and shade (14)to socket assembly(15)
5. Install light bulbs (NOT included), DO NOT exceed wattage maximum as indicated on the rating label.
