

Instruction Manual

Assembly Instructions:

This string light must be used with the lamp guards installed.

For Plastic Guards:

1. Insert light bulb into socket
2. Snap plastic collars of guard halves together around the lamp socket base.
3. Snap perimeter of guard halves together.

Installation Instructions:

1. Make sure the power is turned off.
2. The light string must be supported every 10 feet.
DO NOT use the cable to support the string light, but hook or straps should be inserted through the eyelets above each socket.
3. Turn the power on.

Relamping Instructions:

1. Disconnect power before relamping.
2. For PLASTIC GUARD: unsnap perimeter of guard to install new light bulb. It is NOT necessary to remove the entire plastic guard from the socket to relamp.
3. For METAL GUARD: uninstal the old bulb and install new light bulb.
4. Turn the power on.

For Metal Guards:

1. Screw the metal guards on the socket.
2. Insert light bulb into socket
