Sunlite 05274 Dual Adjustable LED Emergency Light Fixture, 4 Watts, 200 Lumens, 120-277 Volts, Built-In Battery Backup, New York City Approved, ETL Listed, White, For Residential & Commercial Use

DESCRIPTION:

*Sunlite's LED Emergency Light Fixture has a low-profile design that allows it to blend in while providing emergency lighting when needed. The fixture is made with high-quality steel housing to ensure durability and longevity. This fixture has an automatic switch that turns the lights on when there's a power failure and turns them off when the power returns. It provides 90 minutes of continuous power during a power outage. Fixture recharges automatically when power is restored. This fixture has two adjustable thermoplastic LED heads that are lightweight, durable, and resistant to impact and moisture. It also has an indicator button that allows you to test the indicator light's function before permanently installing. ETL Listed for damp location. This fixture has been approved by the city of New York and will ensure that your home or business is safe during emergencies and power outages. Ideal for residential, hotels, retail stores, offices and more! Fixture Dimensions *

FEATURES:

- *CLASSIC DESIGN – This fixture has a low-profile design that allows it to blend in while providing emergency lighting when needed. The fixture is made with high-quality steel housing to ensure durability and longevity.*
